| Unit 1: Straight Line <br> Graphs <br> - Lines parallel to the axes, $y=x$ and $y=-x$ <br> - Using tables of values <br> - Compare gradients <br> - Compare intercepts <br> - Understand and use $y=$ $m x+c$ <br> - Write an equation in the form $\boldsymbol{y}=\boldsymbol{m} \boldsymbol{x}+\boldsymbol{c}$ <br> - Find the equation of a line from a graph <br> - Interpret gradient and intercepts of real-life graphs <br> -Model real-life graphs involving inverse proportion <br> - Explore perpendicular lines <br> Unit 2 : Forming and Solving Equations <br> - Solve one- and two-step equations and inequalities <br> - Solve one- and two-step equations and inequalities with brackets <br> - Inequalities with negative numbers <br> - Solve equations with unknowns on both sides <br> - Solve inequalities with unknowns on both sides <br> - Solving equations and inequalities in context | Unit 4: Three Dimensional <br> Shapes <br> - Know names of 2-D and <br> 3-D shapes <br> - Recognise prisms <br> - Accurate nets of cuboids and other 3-D shapes <br> - Sketch and recognise nets of cuboids and other <br> 3-D shapes <br> - Plans and elevations <br> - Find area of 2-D shapes <br> - Surface area of cubes and cuboids <br> - Surface area of triangular prisms <br> - Surface area of a cylinder <br> - Volume of cubes and cuboids <br> - Volume of other 3-D <br> shapes - prisms and cylinders <br> - Explore volumes of cones, pyramids and spheres <br> Unit 5: Constructions and Congruency <br> - Draw and measure angles <br> - Construct and interpret scale drawings <br> - Locus of distance from a point Locus of distance from a straight line/shape <br> - Locus equidistant from two points | Unit 6 : Numbers <br> - Integers, real and rational numbers <br> - Understand and use surds <br> - Work with directed number <br> - Solve problems with integers <br> - Solve problems with decimals <br> - HCF and LCM <br> - Adding and subtracting fractions <br> - Multiplying and dividing fractions <br> - Solving problems with fractions <br> - Numbers in standard form <br> Unit 7 : Using Percentages <br> - Use the equivalence of fractions, decimals and percentages <br> - Calculate percentage increase and decrease <br> - Express a change as a percentage <br> - Solve 'reverse' percentage problems <br> - Recognise and solve percentage problems (non-calculator) -Recognise and solve percentage problems (calculator) | Unit 9 : Deduction <br> - Angles in parallel lines Solving angles problems (using chains of reasoning) <br> - Angles problems with algebra <br> - Conjectures with angles <br> - Conjectures with shapes <br> - Link constructions and geometrical reasoning <br> Unit 10 : Rotation and translation <br> - Identify the order of rotational symmetry of a shape <br> - Compare and contrast rotational symmetry with line symmetry <br> - Rotate a shape about a point on a shape <br> - Rotate a shape about a point not on a shape <br> - Translate points and shapes by a given vector <br> - Compare rotation and reflection of shapes <br> - Find the result of a series of transformations <br> Unit 11 : Pythagoras' theorem <br> - Squares and square roots Identify the hypotenuse of a right-angled triangle | Unit 12 : Enlargement and similarity <br> - Recognise enlargement and similarity - Enlarge a shape by a positive integer scale factor <br> - Enlarge a shape by a positive integer scale factor from a point <br> - Enlarge a shape by a positive fractional scale factor <br> - Enlarge a shape by a negative scale factor <br> - Work out missing sides and angles in a pair of given similar shapes <br> - Solve problems with similar triangles <br> - Explore ratios in rightangled triangles <br> Unit 13 : Solving ratio and proportion problems <br> - Solve problems with direct proportion - Direct proportion and conversion graphs - Solve problems with inverse proportion <br> - Graphs of inverse relationships <br> - Solve ratio problems given the whole or a part - Solve 'best buy' problems | Unit 15 : Probability <br> - Single event probability <br> - Relative frequency include convergence <br> - Expected outcomes <br> - Independent events <br> - Use tree diagrams <br> - Use tree diagrams to solve 'without replacement' problems <br> - Use diagrams to work out probabilities <br> Unit 16 : Algebraic <br> Representation <br> - Draw and interpret quadratic graphs <br> - Interpret graphs, including reciprocal and piece-wise <br> - Investigate graphs of simultaneous equations <br> - Represent inequalities |

| - Substituting into formulae and equations <br> - Rearrange formulae (one-step) <br> - Rearrange formulae (two-step) <br> - Rearrange complex formulae including brackets and squares <br> Unit 3: Testing <br> Conjectures <br> - Factors, Multiples and Primes <br> - True or False? <br> - Always, Sometimes, <br> Never true <br> - Show that <br> - Conjectures about number <br> - Expand a pair of binomials <br> - Conjectures with algebra <br> - Explore the 100 grid <br> - Expand three binomials | - Construct a perpendicular bisector <br> - Construct a <br> perpendicular from a point <br> - Construct a perpendicular to a point - Locus of distance from two lines <br> - Construct an angle bisector <br> - Construct triangles from given information <br> - Identify congruent <br> figures <br> - Explore congruent triangles Identify congruent triangles | - Solve problems with repeated percentage change <br> Unit 8 : Maths and Money <br> - Solve problems with bills and bank statements <br> - Calculate simple interest <br> - Calculate compound interest <br> - Solve problems with Value Added Tax <br> - Calculate wages and taxes <br> - Solve problems with exchange rates <br> - Solve unit pricing problems | - Determine whether a triangle is right-angled <br> - Calculate the hypotenuse of a right-angled triangle <br> - Calculate missing sides in right-angled triangles <br> - Use Pythagoras theorem <br> on coordinate axes <br> - Explore proofs of <br> Pythagoras' theorem <br> - Use Pythagoras' theorem <br> in 3-D shapes | - Solve problems ratio and algebra <br> $\underline{\text { Unit } 14 \text { : Rates }}$ <br> - Solve speed, distance and time problems without a calculator <br> - Solve speed, distance and time problems with a calculator <br> - Use distance/time graphs Solve problems with density, mass and volume - Solve flow problems and their graphs <br> - Rates of change and their units <br> - Convert compound units |
